THE VALLEY FAIR

As Seen by the Veteran Poultry Judge, I. R. Felch.

The Country Gentleman contains in its last issue a two-column article on the Valicy Fair, written by the veteran poultry judge, I K. Felch. He says in part; "The Valley Fair at Brattleboro, Vt., is an annual sensation. That the last is al-

ways the best has been said for 12 years with truth. Its coaching parade is the finest, and probably brings 20,000 visitors and attendants to this fair. It was a grandreview of beauty and elegance of design. The Ayrshire cattle equaled or excelled those of any fair yet held. The herd of Jerseys from the renowned Hood farm was better than we have before seen here under one tent. The fat stock, steers, sheep and swine were all the best of their kind. squashes there were 12 weighing 1894 ands, with the vegetable display in keeping. But you ask, what has all this to do with poultry? My friend, it has everything to do with it. All this array of merit brings its lovers, and all view the poultry exhibit; and from among the 40,000 who saw that exhibit of poultry, many fan-

"The poultry management at the Valley Fair is worki g in the right direction. It has the finest poultry exhibit of any fair in New England—the best, so far as I have seen, for any fall fair association in America. I say best, not largest in num-bers, perhaps. I have in 12 years seen its exhibit of 148 grow to over 1800 specimens, and seen the cull and nondescript exhibits relagated to the rear to a degree beyond any other association in the country. Its exhibit, further, was more purely a breed-ers' exhibition than any other I know; fewer birds are purchases than in any other, and the merit is not excelled, while the sales at this fair are very considerable.

"The classes, especially among the most practical breeds, were very large; the American class alone numbered 600, with the Barred Plymouth Rocks listing 158, all of the best quality-so much so that had the best 12 specimens been taken out and the class rejudged, it would have been a hard task to do it right. There were 30 to | Bethel. 40 birds that not even an expert could see any appreciable difference in. This class was a rebuke to comparison judging, which gives all the emoluments to the winner and prevents the breeder from showing he has 10 or 20 birds to score within one-half to one point of the winner. The disposition seemed to be for most of the breeders to mass their best birds in their breedingpens; but in this class it was the exception, one reason perhaps being that it was so exceedingly hard to match the phenomenal specimens that won in the open classes -the new classification preventing the specimens in the breeding pens from competing for prizes in the open classes."

Death of Mrs. John P. Sargent.

Mrs. John P. Sargent, 57, died about 11 o'clock last Saturday night after an illness of about five months with cancer of the liver, during which time she had been a great suff-rer. The funeral was held at the house on Tuesday, Rev. J. H. Babbitt officiating. Mrs. Sargent was a daughter of Orlin Pratt, a long-time resident of this village, her maiden name being Emma Pratt. She married Mr. Sargent in July, 1864, at Greenfield, Mass., and they spent the first year of their married life in Bellows Falls, where Mr. Sargent was engaged in the meat business. Since then, with the exception of one year, they have fived in this village, with Mrs. Sargent's mother until the latter's death in 1892. They had no children, but for the past 18 years they have made a home for Walter Bartlett, who has worked for Mr. Sargent. Mrs. Sargent was active in local charitable and benevolent objects and she enjoyed the confidence and esteem of the entire com-

Boston to New York in 18 Hours. A. M. Curtis of Meriden, Conn., ama A. M. Curtis of Meriden, Conn., amateur, lowered the bicycle record tetween New York and Boston Monday, covering the distance in 18 hours. J. J. Casey of Worcester, professional, left New York 30 minutes ahead of Curtis. Curtis passed Casey near Bridgeport. Casey finished the ride in 19 hours and 50 minutes. He met with several accidents. Curtis was paced the entire distance by tandems. Curtis estimated the entire distance at 255 miles, but Mrs. A. M. C. Allen of Worcester, who is familiar with the course, and who rode over it this summer in less than 24 hours, says that the distance is 262 miles.

The Boston Sunday Herald contained the following in regard to a former well-known Brattleboro boy who made his mark in the New York state league the past season, and who recently visited here with his sister, Mrs. M. J. Moran: "Manager Selee thinks well of Outfielder Barrett of the Oswego club. Barrett is short, but fast, a good fielder, a fine throw-er, lively on the bases and a good hitter.

The University of Vermont foot ball team defeated Montpeller seminary at Bur-lington Monday 23 to 0. E. J. Henkel, the left half-back, made the longest run of the game, 40 yards. The Burlington Free Press says special credit should be given Henkel for his all-around play. Coach McLaughlin, formerly one of the star players at Cornell, reviewed the work of the team. He had this to say of the Brattleboro boy: "Henkel played a plucky game. He was twice hurt and should have been taken out of the game, but there was no one to take his place. He ran hard and well but often failed to gain because Strong did not get the end out of the way." Last year the seminary played the 'varsity a tie game, 10 to 10.

The Year Has Been Kind. Written for Zion's Herald by Rev. A. J. Hough f White River Junction formerly of Brattleboro

The year has been kind to us, Yankee folk,

Ye to boasting be there none;
Though vectory came to the flag at a stroke,
We know it was flod who won.
There was sin enough in this Christian land
To have lost a thousand fights,
But a nation's wrong may not rise and stand
In the way of others' rights.

The year has been kind to us, Yankee folk;
On near and far away reas.
As lifted the cloud of the battle smoke,
Our flag alone hailed the breeze.
Twas the man behind the gun—how that word
From press and from pulpit ran—
But this was the message the angels heard,
That God was behind the man.

The year has been kind to us, Yankee folk,
For North and South stood apart;
But the clear, far ring of a bugle spoke,
And now we are one in heart.
God pity the homes where grief appears
For the dead—but are they not blest?
For Mary of Nazar th shed her tears
At the same sad, sweet request.

The year has been kind to us Yankee folk, With her gifts of fruit and flowers. She brought us a word through the battle smot That never before was ours. All hail to the year when the flag unfurled In these Westen breezes free, Bore, shing clear in the eye f the world, The grand word, Humanity:

## EXTRAURDINARY CURES

## DR. J. FRASER BARBRICK

OF BOSTON,

Physician, Surgeon, Psycho-Neuric Healer and Blood and Nerve Specialist

For years I have been treating all forms of chronic, long-standing, obscure and difficult diseases. By a method original with me and peculially my own, I have successfully treated cases in which others have failed and cured cases that have been given up as incurable by other specialists and reputable physicians. This method consists of a systematic application of the true elements of Psycho-Neuric healing, in combination with the Rational methods of Medicine and Surgery, as practised by me, and which I claim to be the true and natural method of applying the healing art. In my use of this method of treatment and the application of 't to this class of diseases, I claim originality, and although my success has led to crude imitations, I believe that today I am the only regular educated Physician and Surgeon in the world using these methods in their entirety. The berbarous, unnatural and unnecessary operations, the harsh and painful treatments, the needless exposures in examination and the old methods used by the ordinary practitioner are all done away with. The treatment is at once scientific, sensible and progressive, safe in its application and positive in its results. Although I treat all forms of chronic, lond-standing, obscure and difficult diseases and cure many so-called incurable cases, I wish it thoroughly understood that if, after careful examination of your case, I am in doubt as to the curability of it, I will frankly tell you so, and I reserve the right to reject any or all cases. and I reserve the right to reject any or all cases.

SICK I shall be in Brattleboro, at the Brooks House, Tues-day and Wednesday, Oct. 25 and 26, and shall consult with, examine, advise and give all medical services FREE OF CHARGE to all who call on me during this

Not only will you be surprised at his wonderful knowledge of disease, his plain, concise explana-tion of every cause and effect, but at the marve-lous rand thy with which his new, common sense RATIONAL treatment goes to the very seat of the trouble, giving a most instant relief, and in all cases that have not progressed too far A Perfect, Absolute and Permanent

Cure. I have been visiting Brattleboro at regular intervals for the last is months. I have treated hundreds of people in this and surrounding towes, and have testimonials from many of your neighbors attesting to my skill in curing diseases even after others have railed. I have published in this paper at various times enough to prove to the besitating sufferer that the immense patronage I receive is gained by works, not works, and to show the sick public what I have done and am doing for those who have placed themselves under my care and have conscientiously followed my instructions and treatment, and you may know or find among your neighbors many of my patients—I cheerfully refer you to them desiring to stand or fall by their opinion.
